SUMMARY

Regulatory Affairs graduate student with hands-on experience in regulatory document management, protocol and informed consent development, and GCP-aligned documentation practices. Skilled in Veeva Vault document workflows, regulatory binder management, and cross-functional coordination with clinical, quality, and regulatory teams. Detail-oriented and organized, with direct academic and professional exposure to clinical trial regulatory requirements, safety documentation, and submission tracking.

EDUCATION

Master of Science in Regulatory Affairs — **Expected Dec 2026**
Northeastern University, *MA, USA* — **GPA: 3.9/4.0**

Bachelor of Pharmacy — **Jun2024**
Gujarat Technological University, *Gujarat, India* — **GPA: 3.6/4.0**

PROJECTS

IND Application & Protocol Amendment Development

- Prepared a full mock IND submission package including FDA Form 1571, Clean/Annotated Protocol, Cover Letter, and Protocol Amendment Summary aligned with 21 CFR Part 312 requirements
- Applied regulatory submission lifecycle management and document control practices, supporting IND compliance, clinical oversight, and readiness for FDA review

GUDID Regulatory Compliance Summary

- Outlined FDA Unique Device Identification (UDI) requirements including Device Identifier (DI) submission, validation, and regulatory reporting obligations
- Clarified global traceability benefits and compliance mechanisms supporting product safety and adverse event accountability

Initial Pediatric Study Plan (iPSP) – Ivacaftor

- Executed a pediatric regulatory development plan aligned with PREA requirements integrating clinical ethics, safety endpoints, and phased submission timing
- Structured justification for waiver/deferral strategies supporting regulatory negotiation and lifecycle planning

Clinical trial Informed Consent Form (ICF)- TNP 2092 for Liver Cirrhosis

- Developed a patient-centric, FDA/ICH-compliant Phase II ICF ensuring ethical transparency, subject protection, and informed decision-making
- Incorporated safety communication standards and data privacy requirements essential for human subject protection oversight

EXPERIENCE

Alnylam Pharmaceuticals — **Jan 2026- Jun 2026**
Medical Writing Co-op — ***Cambridge, MA, USA***

- Managed end-to-end reference workflows using EndNote and Veeva Vault, supporting document readiness and tracking systems for Medical Writing Operations
- Coordinated Veeva Vault workflows, including binder creation, document formatting, and approval processes to support submission timelines
- Prepared CSR appendices and submission-ready documents, ensuring consistency across CTD outputs including Tables, Figures, and Listings (TFLs)
- Designed a structured research project analyzing medical writing requirements across Global regions using a five-pillar framework to support global submission strategy

Global Medregs — **Nov 2024- Jan 2025**
Regulatory Research Volunteer — ***Massachusetts, USA***

- Analysed regulatory frameworks from 5 countries (FIMEA, CDSCO, EOF, FDA, MOH-IMOH) to support a centralized global database
- Developed regulatory comparison summaries enabling cross-country applicability assessments for market authorization
- Collaborated on internal data organization supporting compliance tracking and regulatory intelligence management
- Shared weekly updates and proposed improvements for file organization and version control

Flavocast Healthcare **Jul 2024 - Aug 2024**
CMC Regulatory Affairs Intern ***Gujarat, India***

- Supported the preparation of regulatory documents, mainly Module 3 – Quality section, by gathering technical data from QA, QC, and R&D teams
- Reviewed product labels and packaging materials to ensure basic compliance with local (CDSCO) and regional (ASEAN) regulatory guidelines
- Assisted with label and package insert compliance review ensuring accuracy for marketed formulations
- Supported data collection for product quality modules, aligning submissions with regional regulatory expectations

Amneal Pharmaceuticals **Jun 2024- Jul 2024**
Quality Assurance Intern. ***Gujarat, India***

- Assisted in drafting and reviewing standard manufacturing and packaging documents (BMR and BPR) as per GMP standards
- Maintained documentation and logbooks following Good Documentation Practices (GDP), supporting audit readiness
- Helped track document changes and managed controlled copies, improving documentation accuracy
- Contributed to writing and revising SOPs and participated in deviation reporting activities, gaining exposure to quality compliance workflows

SKILLS
